WHO WE ARE

Laughter. Play. Growth. These symbols of childhood are normal expectations. However, for many transplant children they grow up in the hospital, not knowing if they will survive to adolescence.

85-90% of our families struggle financially, not to mention the physical, mental, and spiritual tolls of life-threatening medical conditions.

The Children's Organ Transplant Society is a safe space for BC's transplant children and their families to seek help. This past year, we have been called upon more than ever to help families cope. With your support, we can continue to transform lives.

OUR IMPACT

"There are so many challenges we are experiencing as a family but we are still thankful that there are people like you and this organization that bring cheer and happiness to our family. You have always given hope to us that we can be happy amidst all the difficulties we are experiencing."

WHAT WE DO

We provide multiple support services, including: medical supplies, basic necessities, in-patient parking passes, food vouchers, and gift cards, education, counselling, camp, as well as peer and end-of-life support.

Our support services are essential to reducing the physical, mental and financial stress our transplant families face. We are the only charity in BC to help transplant families long-term.

OUR VISION

Improving the lives of children requiring organ transplants, and giving them hope for a brighter future.
